NEET Physical Chemistry – Important Revision Topics

1. Atomic Structure

- *Bohr model of hydrogen atom – Radius of orbit, Energy of electron*
- *de Broglie wavelength*
- *Quantum numbers*
- *Electronic configuration*
- *Aufbau principle*
- *Hund's rule*
- *Stability of half■filled & fully filled orbitals*

2. Mole Concept

- *Stoichiometry*
- *Limiting reagent*
- *Empirical & molecular formula*
- *Concentration terms – Molarity, Molality, Normality*

3. Thermodynamics

- *Enthalpy change*
- *Hess law*
- *Bond enthalpy*
- *Entropy & Gibbs free energy*

4. Chemical Equilibrium

- *Kc, Kp relations*
- *Degree of dissociation*
- *Le Chatelier principle*

5. Ionic Equilibrium

- *Buffer solution*
- *Hydrolysis of salts*
- *Solubility product (Ksp)*

6. Solutions

- *Raoult's law*
- *Colligative properties*

7. Electrochemistry

- *Nernst equation*
- *Conductance & molar conductivity*
- *Kohlrausch law*
- *Electrolysis*

8. Chemical Kinetics

- *First order reaction*
- *Half■life*
- *Arrhenius equation*
